## Draft Template of the ESMP mandatorily annexed to the Financing Agreement (FA)

## **General considerations**

- 1. Kenya Power Lighting Company is planning to implement the Kenya eCooking Market Development Initiative (KEMDI) (the *Project*). The Bank has agreed to provide financing, implementation support and monitoring for the Project.
- 2. Kenya Power Lighting Company will implement measures and actions of this Environmental and Social Management Plan<sup>1</sup> (*ESMP*) so that the Project meets all the requirements of the Bank Environmental and Social Operational Safeguards (*OS*) and the National policy and legal requirements.
- 3. Where the ESMP refers to specific plans, whether they have already been prepared or are to be developed, the ESMP requires compliance with all mandatory provisions of such plans.
- 4. The table below summarizes the material measures and actions that are required, the basis of the requirement, the timing of the measure or action, and the criteria to be used for determining whether the required measure or action has been successfully achieved. Kenya Power Lighting Company is responsible for compliance with all requirements of the ESMP even when implementation of specific measures and actions is conducted by an entity different from the Project Implementation Unit (PIU).
- 5. Implementation of the material measures and actions set out in this ESMP will be monitored and reported to the Bank by Kenya Power Lighting Company as required by the ESMP and the conditions of the legal agreement, and the Bank will monitor and assess progress and completion of the measures and actions throughout implementation of the Project.
- 6. As agreed by the Bank and Kenya Power Lighting Company, this ESMP may be revised from time to time during Project implementation, to reflect adaptive risk management of project changes and unforeseen circumstances or in response to assessment of project performance conducted under the ESMP itself. In such circumstances, Kenya Power Lighting Company will propose and agree changes with the Bank, and then update the ESMP to reflect such changes.

<sup>&</sup>lt;sup>1</sup> The ESMP refers to all the E&S risks/impacts and measures, as approved in all the disclosed E&S documents and agreed between the Bank and Borrower. For projects involving multiple subprojects, that are identified, prepared and implemented during the course of the project, the Borrower will need to demonstrate to the Bank, before the project appraisal, through the preparation of E&S documentation of a sample of subprojects, that it has the capacity to carry out appropriate environmental and social assessment of subprojects, and prepare and implement such subprojects in accordance with the national laws and the OSs. (*Section III.2.3 of Bank's ESP and section D of OSI*)
